

I Want to Be a...

When I Grow Up

I'll Be a Star!

1. Do you remember when you were young and you wanted to be a fireman, a ballerina, or an astronaut?
2. Dreaming about what you want to be when you grow up is important for every child to do
3. Help your child think about the future- it's OK to dream about things that may seem to be impossible- who knows what will happen in the future
4. Taking your child to work, playing dress-up, and pretend are all ways your child can get an idea about the many jobs that are out there
5. We all had a dream when we were little- help your child to dream
